

# IGF Community site

## <http://igf-online.net/>

### Join us online!

The Internet Governance Forum's Online Collaboration Dynamic Coalition (OCDC) has prepared a new Web site to bring together the range of official and community-based resources already existing for the IGF, and to host brand new ones.

Have your say about what's going on around you, and assist those who couldn't make it to Rio by including them remotely. You can also host your dynamic coalition's Web page, mailing list or wiki here. Your input will help make this site a success.

- Blog:** Add to the community blog
- Wiki:** Anyone can edit the IGF Community wiki
- Chat:** Either use the Web page or download IRC software to participate in online chat
- Lists:** Read, participate in or start mailing lists
- Feeds:** The site aggregates postings on the IGF from around the blogosphere
- Dates:** Includes an updated calendar of events
- Links:** Find the official sites and dynamic coalition sites from the custom-built top menu
- More:** What else do you want? Let us know!
